

Forward thinking at Palladio Homes

Palladio Homes prides itself on being a prestigious and progressive residential construction company, with modern and upmarket designs crafted to suit a modern lifestyle.

Their display homes at the Master Builders Coomera Retreat display village at Conestoga Way, Upper Coomera show how inspiration from Andrea Palladio along with functional, practical and spacious entertaining areas, allow each design to lend itself to the Queensland lifestyle.

Raised ceilings provide a feeling of grandeur and elegance as you enter the home, past the impressive open staircase through to the open plan living areas.

Once again the discerning Palladio features – quality workmanship, functionality and practicality – shine through.

With over 15 upmarket project homes designs, the company has set out to deliver practical solutions for buyers, as well as exceptional quality.

Palladio Homes understands that everyone has different needs and consequently, they offer an in-house design service to modify the standard plan, providing a one-of-a-kind design. This also allows Palladio Homes, as a forward thinker in today's environment, to build on flat, sloping and waterfront blocks.

Managing Director, Brad Fullin, is proud to offer his personal guarantee that with every Palladio home you will receive an unsurpassed commitment to excellence and customer satisfaction.
