

Cooking with class

PALLADIO Homes enjoyed great success at this year's Master Builders Queensland Awards, scooping the Best Kitchen category in both the regional and state awards.

Founder and chief executive officer of the new Gold Coast company, Brad Fullin, said the win was extremely rewarding for all of the team at Palladio.

"We demand this type of high quality with all our residential projects, regardless of the contract value," he said.

The award-winning kitchen, designed and built by Palladio, belongs to a Sovereign Islands home but would take pride and place in any home.

Bound to impress all chefs, the sophisticated kitchen forms the hub of the home and boasts many impressive features.

It has full gloss, two-pac timber veneer cabinetry, marble bench-tops, Blum soft closers, curved cabinetry and curved, painted glass splashbacks.

A range of European appliances have been fitted, including a Miele coffee machine, combination oven, steam oven, plate warmers and a fully commercial Ilvie upright cooker which was especially imported from Italy.

Grohe tapwear and Blanco undermount sinks add a touch of elegance.

A commercial hot and cold water unit is also built in for convenience, while generous lighting adds to the appeal.

"Outstanding craftsmanship and detail was required to achieve this kitchen's contemporary and sleek finish," said Mr Fullin.

"Here at Palladio our motto is 'The lifestyle choice' and with this example, it's easy to see why."

The company handles contracts from \$150,000 to \$5 million and also has an in-house drafting division so dream homes can be created from scratch.
